

Disclosure

According to SB577 Section 3 sub section 2053.6 - the 2002 California Alternative Health Care Law:

I, _____ acknowledge

1. Brian David Andersen (BDA) is not a licensed physician.
2. BDA has 30 years of experience in alternative health care
3. The services provided by BDA, Tri-Vortex Technology and the Tri-Vortex Institute are not licensed by the State of California nor have they been reviewed by any state or federal agency or administration.
4. The services provided **are not** electrotherapy based whereas direct or alternating currents are pulsed beneath the skin or inside the body
5. The services provided are topically administered (on the surface of the skin) pulsed electromagnetic fields.
6. The services administer non-drug and non-controlled substances both topically and internally such as ozonated or transformed plant oils including olive, coconut, castor and hemp (less than .03 percent THC) and silver hydrosol.
7. BDA and the Tri-Vortex Institute **do not** remove any blood or body fluids and BDA and the Tri-Vortex Institute **do not** provide any kind of intravenous (IV) injection services.

Section 516 of the March 22, 2018 FD&C Act authorizes the Agency [US Food & Drug Administration] to ban devices that present substantial deception or unreasonable and substantial risk of illness or injury.

1. BDA, Tri-Vortex Technology and the Tri-Vortex Institute do not make any direct or indirect claims to cure weight loss, sexual performance, memory loss and serious diseases such as cancer, diabetes, heart disease, arthritis and Alzheimer's in the oral presentations, text and photos in the written literature and video presentations provided by BDA.
2. The one and only goal (not a claim whatsoever) of BDA, Tri-Vortex Technology and the Tri-Vortex Institute conveyed in the oral presentations, the written literature and video presentations is to improve the quality of life.
3. BDA, Tri-Vortex Technology and the Tri-Vortex Institute only deploy services and utilize devices that have no risk of illness or injury.

The objectives of the services are to stimulate the lymphatic system and promote stem cells to generate and distribute naturally throughout the body with proper hydration, sound, lights, lasers, water table vibrations and topically applied electromagnetic pulses and all of these devices function within the guidelines and protections of SB577 Section 3 sub section 2053.6 - the 2002 California Alternative Health Care Law and Section 516 of the March 22, 2018 FD&C Act.
