

**From the Desk of Judith Kravitz  
Founder - *Transformational Breath***

Are you (or someone you know) having physical pain, bouts of illness, or even a serious disease? Or maybe you (or they) want to perform better in sports or dance?

Well, I have found something extremely valuable, and want to share it with you. This has already been a real life-changer for many people, and I feel a responsibility to get the word out in a big way. I believe that if you take just five-minutes to read this letter, it could change your life as well.

For over 10 years, I have experienced tremendous results using Brian David Andersen's cutting-edge *Tri-Vortex Technology* items. I've also been sharing these vibrational healing tools with my network of Breathers, family and friends, and I continue to be excited and amazed by the wonderful results witnessed.

Perhaps you have a *Tri-Vortex* scarf, plate or laser tool purchased at a Transformational Breath event? If so, you know what I am talking about. Having a scarf or bracelet that structures water before or after you drink it, is really powerful.

But Brian's latest revolutionary development is really blowing my mind. and is called the ***Stem Cell Stimulator*** (SCS). Results have been nothing short of miraculous.

The SCS includes a healing table that uses a unique combination of sound, water, vibration, light therapy and lasers to stimulate bone marrow activity where stem cells are produced in the body. Unlike other stem cell treatments, however, this is completely pleasant and non-invasive, so there are no health risks involved.

I want you to know that I don't have anything to gain financially by sharing this info. Just the satisfaction of helping to change the world by making more people aware of an exciting new healing technology.

1.) I have personally experienced a powerful healing, and witnessed several in my immediate family. Please read about them below.

I was amazed, but Brian wasn't! He told me that out of 40 people suffering from sciatica, who were treated on the SCS Table, the 39 who did the follow-up protocols had long-term significant pain relief and improved mobility.

2.) I immediately called my daughter, Moni, who lives in San Diego. She was suffering from a severe back injury. Simply walking, sitting or moving had become very painful for her. After just 3 one-hour SCS treatments, her back pain was completely gone! To this day, it has never come back.

3.) Of course, Moni had to tell her sister, Madonna, who is a world class athlete (biking, snowboarding and surfing). She typically places in the top 3rd at international Iron Man competitions. Mostly with the hope of improving her performance, Madonna flew to San Diego to experience the SCS. She also hoped to relieve some chronic aches and pains that had developed from years of intense training and competition.

After two sessions, Madonna felt immediate relief from all her physical symptoms! In fact, during the first session, she regressed back to a recent kite board accident. She had fallen 60-feet and was knocked unconscious for five minutes. While on the SCS table, her body knew to breathe into the surfacing memories. The trauma was able to integrate and release. She knew something big had shifted.

Madonna had two more SCS sessions, as well as a special *Tri-Vortex* Ozonated Hemp Oil cellophane (cling wrap) applied to her legs. After returning to her very active physical life in Lake Tahoe, she reported the following:

My swimming, biking and running practice runs are recorded directly into a global data base. The combined performances compete against other female athletes around the world. Before the SCS sessions, I ranked 47th in the world. Six weeks after SCS sessions, I ranked #4 worldwide!

The amazing thing is my fear has diminished. The fear of injury or holding back has completely dissipated. I am able to stay focused, and more in the 'zone'. I experience a clarity and centeredness that I never had before, which relates to my improved performance beyond anything experienced before.

Specific changes included:

- Able to sustain and maintain longer workouts without exhaustion
- 20 percent gain in biking and running speed in less than one month
- Weight lifting strength tests better and stronger than ever

4) About a month after Madonna's experience, I got a phone call from my youngest son, Abe. He had seriously injured an ankle in a basketball game and was totally laid up. Icing regularly had not improved his condition whatsoever. I suggested a visit to Brian. After the first SCS treatment, 95 percent of the pain was relieved. Once again, a miraculous healing. After four treatments, his ankle was 98 percent healed.

5) Latest development: My sister, Dott, flew in to San Diego. For four years, chronic low

back pain has kept her awake at night, so she takes medication to sleep. Here is a quote from Brian after her session: Then this...

I almost cancelled a vacation to visit family due to 3 weeks of *severe* nerve and muscle pain that seemed to emanate from my lower spinal region. It radiated throughout my groin and right leg, making it impossible to walk properly without shocking waves of pain.

Thank God I proceeded with the trip, because it was my good fortune to be introduced to the Tri-Vortex technologies, especially the *Stem Cell Stimulator*. I was totally unprepared for the expansive experience I had on the SCS table, and literally amazed by the 65-75% improvement I got after my first treatment. After 4 treatments, I was able to walk without any pain and have been able to resume all my daily activities to full capacity!

However, the thought of going home without the Tri-Vortex technology was daunting. So I was happy to learn about the portable Tri-Vortex equipment and bought some to bring home with me. I look forward to using them.

My experience has shown me that this technology is truly a gift to humanity... an amazingly powerful tool for healing on many levels. I am so grateful for the pain relief and other tremendous benefits."

Dorothy Parmar, Atlanta, GA

I have traveled the world, sharing the power of Transformational Breathwork. During these amazing 40 years, I have also explored many therapeutic technologies from the alternative health field. Yet, I can honestly say that nothing comes close to the Stem Cell Stimulator.

Please avail yourself of this gift at your doorstep. The *Stem Cell Stimulator* is available for treatment sessions in San Diego. And Brian has agreed to offer a 20% discount to the first 10 of my friends who respond to this letter, and agree to let your video testimonial appear in the next documentary. Simply mention my name and the discount when you call or email Brian to purchase a Gift Certificate or series of SCS treatment sessions.

You'll also qualify for 10% off any SCS-related *Tri-Vortex* tools you decide to buy at your treatment sessions, even if you're not one of the first ten to sign up. I expect this to be a pretty popular gift item, so go ahead and call Brian Andersen at 619 884-1455 right away so you don't miss out. You can also email him if you have questions at [brian@trivortex.com](mailto:brian@trivortex.com).

If you don't live near San Diego, and your symptoms don't warrant traveling there for treatment, certain elements of the system can be purchased for home use. Or perhaps

your local chiropractor or Naturopath would consider adding the SCS to their treatment options?

One of my primary intentions for 2015 is to help Brian make this phenomenal healing technology available to more families, especially those being ravaged by chronic pain or terminal illness. Your purchase now will help your loved ones and families around the globe.

But even if it's not right for you to buy a *Gift Certificate* or treatment at this time, any ideas, contacts or support you can offer will be greatly appreciated. Even sharing this info by forwarding it to your email list, Sharing it on Facebook, LinkedIn (or wherever you network) will be a wonderful contribution to the healing of the world. And I thank you.

Sending love and hugs,

Judith Kravitz

P.S. Gift Certificates can be used for these tools or SCS treatments. Brian's Tri-Vortex technology has added so much to my life, and I continue to be in AWE of what these tools can do... Please take advantage of these gifts... for you and your loved ones, especially now that the holidays are upon us.

P.P.S. If you want more information, a documentary featuring the latest version of the SCS will be released in early 2015. There is a documentary detailing healing that occurred with an earlier version of the SCS. It can be viewed at: <https://vimeo.com/91872025>. NOTE: the video testimonials were shot at the Hippocrates Healing Institute, however Brian is no longer associated with HHI since he moved from Florida to California, and the SCS is no longer available at HHI.
