

Tri-Infrared Bulb (TIB)

Continuous Application

After applying the TIBs with the basic protocol as detailed on the right illustration, the TIBs are applied directly to the rash or ulcer area.

TIB Gut Cleanse

Apply the TIBs separately or simultaneously to the large and small intestine and colon (between navel and pubic bone) for five to 45 minutes. The TIBs are excellent modalities for maintaining appropriate magnesium levels in the digestive system. The TIBs can be placed on any portion of the digestive system while lounging or sleeping.

The *Tri-Vortex Technology Skin and Dermatology Protocols* featuring the TIBs are designed to be as simple as possible yet provide important gut and digestive health when addressing any kind of skin issue.

The TIBs improve the quality of life for any kind of muscle and nerve condition including arthritis and joint pain. Apply one TIB to Atlas bone at top of spine and one TIB at bottom spine – coccyx for full body rejuvenation.

TIBs are ideal for couples and families to apply to each other but also is very good for the single person.

Easy Application

No Contraindications

Multiple Uses

Very Effective
